### Select of claims table

The screenshot shows a SQL IDE window titled 'hpetsmxDB'. The query editor contains the following SQL statement:

```
1 | select * from Claims;
```

The status bar at the bottom indicates the query is executed, showing 'Ln: 1 Ch: 22 TABS CRLF'. Below the status bar, the 'Results' tab is active, displaying a table with the following data:

Id	Description	Status	Date	VehicleId
1	Damage	1	2022-10-10 10:00:00.0000000	1

### Select of owners table

hpelismxDB

```
1 select * from Owners;
```

90 % 1 0

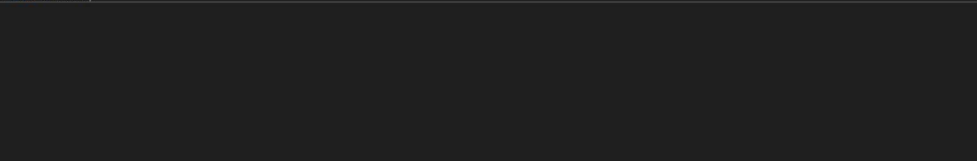

Results Message

Id	FirstName	LastName	DriverLicense
1	John	Mathew	AZXXXXXXXXXX

Query executed successfully at 4:41:10 PM

(localdb)\MSSQLLocalDB (15... | INT\Jose Azevedo (53) | hpelismxDB | 00:00:00 | 1 row

### Select of vehicles table

The screenshot shows the SQL Server Enterprise Manager interface. The top pane displays a query in the 'Query Editor' window:

```
1 | select * from Vehicles;
```

The bottom pane shows the 'Results' tab with a single row of data:

Id	Brand	Vin	Color	Year	OwnerId
1	BMW	AS1209XX	BLACK	2022	1

The status bar at the bottom indicates: 'Query executed successfully at 4:40:44 PM' and '(localdb)\MSSQLLocalDB (15... | INT\Jose-Azevedo (53) | hpelmsxDB | 00:00:00 | 1 row'.
